EDUCATION

M.F.A., Technical Design and Production, Yale School of Drama

B.A., Theatre and English [Creative Non-Fiction], The University of Iowa

ADMINISTRATIVE AND LEADERSHIP IMPACT

Assistant Dean for Infrastructure and Faculty, College of Arts and Sciences, Kansas State University

Associate Director, School of Music, Theatre, and Dance, Kansas State University

Technical and Managing Director, Asst./Assoc./Professor, Theatre, Kansas State University

Assistant Professor: 2009-2014

Associate Professor: 2014-2022

Full Professor: 2022

I am grateful to impact and affect the students, faculty, campus, and community in the following ways:

Facilities Management, Renovation, and Programming

- Developing Programming for an Interdisciplinary Arts Building (IAB) with the departments of Art and Music, Theatre, and Dance (MTD). Project will pursue \$100 million in grant and foundation philanthropy to serve as a gateway to campus.
- Re-located and consolidated 50,000 s.f. of campus space to save nearly \$250,000 each year
- Prioritize and coordinate over \$200,000 in state renovation and repair funding for the College of Arts and Sciences.
- Coordinate and schedule approximately 300 events per academic year between MTD and outside rentals
- Solicited, Planned, supervised, and maintain a \$1 million renovation to 250-seat theatre
- Planned, supervised, and maintain renovation to historic campus building totalling nearly \$9.5 million.
- Developed, implemented, and maintained a training program for House Managers focused on audience safety.
- Solicited, negotiated, and implemented a MTD box office system providing greater accessibility, saving the units over \$30,000 in one year alone; the resulting program remains financially independent from the College.

Curriculum Innovation, Maintenance, and Student Development

- Led the development, re-alignment, and communication of a stream-lined theatre program curriculum focused on flexibility, opportunity, diversity, and interdisciplinary.
- Created new courses that align with College-level funding providing over \$15,000 in travel support.
- Initiated and coordinated flipped-classroom delivery to production-related courses to allow for greater student immersion and understanding in how theatre skills translate to life-skills.
- Developed a hands-on training program for technical students to work professionally Off-Broadway.
- Led areas of NAST Accreditation related to production and finances.
- Supervised the creation of new programs and units of Social Transformation Studies; School of Media and Communication

Budget and Finance

- Manage Theatre program budget of \$100,000 per year including materials, labor, marketing, and tickets sales. In 10 years, I have been consistently within 1% of estimated and actual expenses.
- Manage and distribute nearly \$5 million in student fees to the College of Arts and Sciences each year.
- Collaborate, develop and prioritize over \$100,000 in classroom supply and student labor funding each year.
- Developed and managed student research funding programs totalling over \$100,000.
- Represent the Arts and Sciences on the College-level budget model working group to revise an RCM practices.

Friend, Fundraising, and Development

- Produced four events with University Foundation, raising over \$100 million for University goals and naming opportunities.
- Created and implemented engagement activities to solicit \$1.2 million in private donations for facilities renovations.
- Developed audience engagement activities to raise thousands of dollars per year for program scholarships.
- Created consistent, yet flexible, marketing plan for production; pre-pandemic grew audiences by 20%.
- Managed \$100,000 in Foundation endowment.

Recruitment, Retention, and Strategic Initiatives

- Developing programs focused on student well-being in the arts.
- Created focused recruitment materials showcasing program strengths and identity
- Incentivized production participation through research grants - offering nearly \$10,000 per year
- Identified trends in engagement and participation to align with existing resources. Post-pandemic this was essential to re-connect with patrons and students.
- Led Music, Theatre, and Dance through three different strategic planning initiatives to align with University priorities.
- Developed strategic goals and outcomes for the college of Arts and Sciences to align with the University's Strategic Plan.
